

 EmTech CyberShield™ Certification Guarantee

Your Path to CMMC Success — Backed by Confidence

 What We Guarantee

When you follow our approved CyberShield™ solutions and implementation roadmap, **we guarantee your organization will achieve certification** for your target **CMMC Level 1, 2, or 3**.

If any control fails during assessment due to a gap in our guidance or deployment, **we will correct that control free of charge** — ensuring your compliance is restored without added cost.

 What's Covered

-  Controls implemented through EmTech CyberShield™
-  Documentation, mappings, and incident response playbooks
-  Endpoint protections, SAT training, and audit prep packages
-  Support through third-party assessment readiness

 What's Not Covered

-  Controls outside our approved roadmap or modified by third parties
-  Failures due to client-side misconfiguration or non-compliance
-  Systems not included in the original scope or added post-deployment

 How It Works

1. Schedule a **CMMC Consultation**
2. Follow our tailored roadmap and deploy CyberShield™ solutions
3. Prepare for assessment with our support team
4. If any covered control fails, we fix it — free of charge
